

Make It Real

Turn the new-school reality into your next step

You just saw what's changing — and the role that's changing with it. This page makes it personal. Be honest, take ten minutes, and write by hand if you can.

START HERE

The half you already have

Tick every one that's already true of you:

- I encourage kids when they're discouraged
- I notice who's quietly struggling
- I build character, not just cover content
- I spark curiosity and ask good questions
- I coach and mentor, not just lecture
- I meet students where they actually are

However many you ticked — that's the human half of the facilitator skillset, and you already have it.

LOOK INWARD

Two honest questions

Which part of the facilitator role excites you most — and which part scares you?

Where are you now, compared to the facilitator you could become?

CHOOSE

Your door

Which door pulls at you right now?

- Door A — Get hired into the new model
- Door B — Build my own (microschool, tutoring, learning business)

Why this one?

YOUR AI HALF

The skill to learn first

The new half is learning to run the AI. The one AI skill I want to learn first:

DO ONE THING

Your first step

One small action I can take in the next 7 days:

Small steps, real direction. See you in Lesson 2.
